

2016 Summer Asia International College Training Announcement

With a burden for the Lord to gain a group of age-turning young people, the churches in Taiwan will be hosting an Asia International College Training. We hope that through such a training, the college students in the churches will be stirred up to pursue the Lord that they would be constituted with the Lord's up-to-date truth, and that through practicing the corporate God-man living in the training, they would be encouraged in the Body to give themselves to be today's overcomers. We plan to host such a training in a different country every year. Through such blending in the Body, may the young people's view and the extent of their spiritual experiences be enlarged that their appreciation for the riches of the Body of Christ will increase. To facilitate the learning of language for the furtherance of the fellowship and coordination of the one new man, this training will be conducted in English. Co-workers from the United States will coordinate in the service of this training. It is our earnest desire that this generation will be the generation to bring the Lord back.
